

CartonPlast

**Welding & DieCutting line
for CARTONPLAST Boxes**

APPLIED HI-TECH IN PACKAGING

The results achieved through years experience, led us in the design & manufacturing of this very specially conceived line.

A fully automatic process from a **CartonPlast sheet** pallet to a pallet of welded & die-cut **CartonPlast boxes**.

The **CartonPlast box** obtainable through our line is actually very competitive, here some of the main reasons :

- » **100% Hygiene**
since **NO dust/bacteria** or any liquid can enter & grow-up in the sheet flutes, thanks to its welded perimeter

- » **HIGHER Resistance & Stability**
thus allowing box weight & costs reduction
